about company

Registan Exports

A Govt. Recognised Export House
ISO 9001:2008 & BSCI CERTIFIED

Registan Exports is an ISO 9001:2008, SMETA, BSCI certified company, established in 1991 by Mr. Akash Gupta, the founding and current President. Strong Labour and Sophisticated Capital are the foundations of any successful business. Therefore, Registan Exports today is equipped with a dedicated team of professionals and the most advanced technology for the purpose of developing and producing quality garments. Charles Darwin once said that, "It is not the strongest of the species that survive, nor the most intelligent, but the one most responsive to change." This theory applies heavily in the extremely dynamic garment and fashion industry.

Therefore, ever since its inception, the company has primarily focussed extensively on research and development (R&D) of value added garments in various categories, including women and kids wear, consequently bearing its own unique collection of different wears. Moreover, an additional team of professionals is dedicated towards foraging, forecasting, developing and projecting the current as well as the future trends in the line of fashion. Most importantly, the motto of placing customer trust and dealing with their most complex requirements above everything else is what makes the company exceptional and outstanding. Lastly, being the stalwarts of innovation and quality in the field of garments, Registan Exports strongly believes in leaving its customers with an indelible mark of quality and satisfaction towards our work and products.

vision

To raise the productivity & quality performance ahead of time. While focusing on customer-centric approach and innovation to deliver the best quality standards uncompromising business ethics.
